

ABOUT MALAYSIAN TECHNICAL COOPERATION PROGRAMME (MTCP)

The MTCP was established in 1980 aim at providing technical assistance to participating developing countries. The programme consolidates various forms of technical cooperation in areas where Malaysia has the experience and the expertise.

More than 100 short-term specialized courses are offered by more than 70 MTCP training institutions, many of which are centers of excellence for training. Since its launching, more than 20,000 participants from 140 countries have benefited from the various programmes offered under MTCP.

OBJECTIVES OF MTCP

- To share development experience with other countries
- To strengthen bilateral relations between Malaysia and other developing countries
- To promote South-south Cooperation (SSC)
- To promote technical cooperation among developing countries (TCDC)

TYPE OF ASSISTANCE

- Short-term specialized courses
- Long-term courses (Scholarships)
- Study visits and attachments
- Service of experts
- Socio-economic development projects
- Supply of equipment and materials

ABOUT IEWM

IEWM was established in 2003 and is involved in providing skill development courses and technical training programme, project management, collaborative research and development and consulting services for various industries. Our close relationship and collaboration with Centre for Advancement of Trenchless Technology (CATT) - University of Waterloo (Canada), Utility Training Academy (USA) and Asian Institute of Management Science (AIMS), GPR Institute and Institute of Infrastructure Asset Management (IIAM) is the platform for our success. We also bring together a diverse range of technology based companies linked by their common goal to deliver innovative and cost effective solutions of water, waste water, underground infrastructure/utilities and environmental issues concern.
