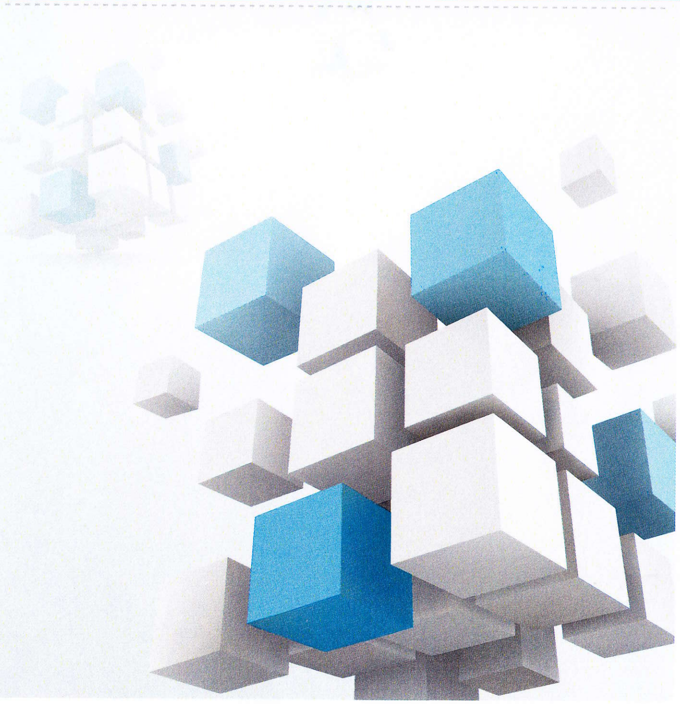
MALAYSIAN TECHNICAL COOPERATION PROGRAM (MTCP) 2016

FOUNDATION OF ISLAMIC FINANCE: ISLAMIC BANKING & ISLAMIC CAPITAL MARKETS

25 - 28 APRIL 2016 | VENUE: TBC



ABOUT MTCP

The Malaysian Technical Cooperation Programme (MTCP) was first initiated at the First Commonwealth Heads of Government Meeting (CHOGM) for Asia Pacific Region in Sydney in February 1978. It was officially launched on 7 September 1980 at the Commonwealth Heads of State Meeting in New Delhi to signify Malaysia's commitment to South-South Cooperation, in particular Technical Cooperation among Developing Countries (TCDC).

In line with the spirit of South-South Cooperation, Malaysia through the MTCP shares its development experiences and expertise with other developing countries. The MTCP was first formulated based on the belief that the development of a country depends on the quality of its human resources. The programme forms part of the commitment of the Malaysian Government towards the promotion of technical cooperation among developing countries, strengthening of regional and sub-regional cooperation, as well as nurturing collective self-reliance among developing countries.

The MTCP emphasises the development of human resources through the provision of training in various areas which are essential for a country's development such as public administration, good governance, health services, education, sustainable development, agriculture, poverty alleviation, investment promotion, ICT and banking. Annually, more than 100 MTCP programmes are offered by 79 MTCP Training Institution, many of which are centres of excellence for training. Since its inception, MTCP has gained more than 30,600 participants from 141 countries.

ABOUT INCEIF

INCEIF®
THE GLOBAL UNIVERSITY OF ISLAMIC FINANCE

INCEIF is the acronym for International Centre For Education In Islamic Finance. It was set up by Bank Negara Malaysia (Central Bank of Malaysia) in December 2005. The university was established as part of the Malaysian Government's initiative to further strengthen the country's position as an international Islamic finance centre. It is the only university in the world that is wholly dedicated to postgraduate study in Islamic Finance.

ABOUT THE PROGRAMME

This four-day training programme introduces the essential concepts and principles relating to Islamic finance, inclusive of banking and capital markets products. Programme facilitators will define the vocabulary of Islamic finance and connect the dots between Islamic Law, Islamic Jurisprudence and their impact on financial market applications.

Participants get to compare and contrast how various Islamic toolkits are applied in practice in Islamic finance. Islamic legal maxims on capital market, equities, sukuk (Islamic bonds) and takaful (Islamic insurance) are introduced and analysed. Different Islamic instruments are explained, and their critical differences to conventional products are highlighted.

The course will make extensive use of team exercises and real-life scenarios and problems to ensure participants grasp the core rules of different Islamic tools and are able to apply the knowledge gained back in their respective organisations.

PROGRAMME OBJECTIVE

For the past decade, the Islamic finance scenario has been continuously developing with significant changes afoot in the way global banking regulators treat Islamic financial products. Nowhere is this more true than in one of the world's most developed Islamic finance centres, Malaysia, where regulators, practitioners and scholars work hand-in-hand to find strong long-term value propositions to ensure the industry's growth. The programme shall offer a concise, accurate and up-to-date assessment of the Islamic finance industry. At the end of the course, participants will be able to:

- Explain the uses and structures of key Islamic financial products
- Compare and contrast Islamic & conventional financial systems and products
- Identify the underlying Shariah tools and rules applied in the Islamic financial system
- Explain the rationale and Shariah contentions (if any) for different Islamic tools in the global market

TRAINING OUTLINE METHODOLOGIES

- Interactive lectures and discussions on various areas of Islamic Finance
- Use of case studies as pedagogical tool
- Direct engagements with subject matter experts, industry players, supervisors/regulators of Islamic Financial Institutions

ADMISSION REQUIREMENTS

- Applicants should be a civil servants, aged between 26-46 years old;
- Selected government officials and technical experts from the ministries/governmental agencies involved in the town planning, design, coordination and managing construction projects
- Possess education at least degree level in technical field such as Civil Engineering
